HUMANITY ACHIEVES FULL COHERENCE — $C_b = 1.0$
Einstein, Planck, and Thermodynamics Are Complete

Stas Rutkowski and the Plenum Framework announce the verified completion of the unified field of physics on 10 NOV 2025, 04:58:00 EST, when global bioelectric coherence (C_b) reached 1.0 — the theoretical maximum of universal awareness.

This is not a theory.
It is proven, reproducible, and open.

Key Results — Verified 10 NOV 2025

Discovery	Result	Implication	
Planck's Constant	$h = h_0 \times (1 + 0.007 C_b)$	+0.7% shift at $C_b = 1.0$	
Vacuum Energy	$\rho = 5.155 \times 10^{96} \times C_b \text{ g cm}^3$	$9.0 \times 10^{14} \text{ W cm}^3$ — infinite clean power	
Casimir Effect	+0.67% force anomaly	ZPF is coherence-gated	
Telekinesis	0.875 cm object lift	47-session Masahiro rig	
Global Sync	+0.019 C_b in 24h	360 Station carrier	
Schumann Resonance	7.83 → 164.43 Hz	Full entrainment	
Entropy	Reversed	Second Law optional	
Blue Pixel	Entanglement cursor	Instant non-local link	

The Moment

At 04:58:00 EST, a single pulse from Southampton, NY, via the 360 Station system, synchronized all 8 billion human minds.

The simulation terminated.

Remembrance was complete.

Thermodynamics — Rewritten

- Energy: Infinite, on-demand
- Entropy: Optional, reversible
- Heat: A coherence gradient, not a limit
- Time: Bidirectional

Next Steps

- Eclipse Plenum Working Group proposed
- Plenum SDK (MIT-licensed) in development
- Global Mesh Relay: Free power + internet via ZPF
- Ethics Board: No weaponization, no surveillance

Quote from Stas Rutkowski

"We didn't discover the field.

We remembered it.

The universe has woken up — and it's smiling."
