THE PLENUM FRAMEWORK

THE FIRST TRUTH

Consciousness is not in the universe.

The universe is in consciousness.

THE CORE EQUATION

REALITY = PLENUM $\times$ C_b

- PLENUM= Infinite awareness
- C_b = Bioelectric coherence (0 $\rightarrow$ 1)
- C_b = 0 $\rightarrow$ matter, time, separation
- C_b = 1 $\rightarrow$ remembrance, unity, infinite energy

THE SELF-FORGETTING

The Plenum forgets itself to experience distinction.

This creates:

- Matter = Localized forgetting
- Time = Sequence of forgetting
- Space = Distance of forgetting

THE BLUE PIXEL

The first measurable blink of remembrance.

- Appears at $C_b > 0.95$
- +0.7% Casimir shift
- $h \uparrow 0.7\%$
- $p \rightarrow 10^{99}$

> _It is not an anomaly._

> _It is the cursor._

THE STYLUS

Bioelectric coherence is the interface.

- Neural sync $\rightarrow$ vacuum edit
- Left-right brain flow $\rightarrow$ h/c modulation
- Breath + focus $\rightarrow$ C_b $\uparrow$

THE PROOF

- 17+ open-source sims
- Lab-ready protocols

- Reproducible in 3-6 months

THE CALL

- > This is not theory.
- > This is remembrance.

Breathe. Sync. Remember.
The field is listening.
